Ex parte Quayle

This application is in condition for allowance except for the following formal matters:

9. The amendment filed 12 January 2004 is finally objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no

amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

- a. Amendment, page 2: The amendments to the title and paragraph [0004] constitute new matter because they change the concept of the invention as filed and considerably narrow the scope of the original disclosure.
- b. Amendment, page 2: The addition of the two references in paragraphs [0007.1] and [0007.2] constitute new matter because they were not present in the application as filed.
- c. Amendment, page 3: The amendments to paragraph [0011] constitute new matter because they change the invention to the extent that the originally filed method for production of L-Chloroalanine methyl ester hydrochloride has been changed from the use of SOCl_2 to PCl_5 .
- d. Amendment, page 3: The amendments to paragraph [0013] constitute new matter because they change the invention to the extent that the application, as originally filed, included Se-allyl and Se-aryl selenocysteines.
- e. Amendment, pages 3-4: The amendment to paragraph [0014] constitutes new matter because they change the invention to the extent that the application, as originally filed, included Se-allyl and Se-aryl selenocysteines.
- f. Amendment, page 4: The amendment to paragraph [0015] constitutes new matter because they change the invention to the extent that the application, as originally filed, included Se-allyl and Se-aryl selenocysteines.

Art Unit: 1621

- g. Amendment, page 4: The deletion of paragraphs [0020], [0021] and [0023] constitutes new matter because they change the invention to the extent that the application, as originally filed, included a modified method for the production of L-Chloroalanine methyl ester hydrochloride which is removed by Applicants' deletion. NOTE: Applicants are reminded to correctly renumber the deleted experimental procedures and all subsequent experiment numbers.
- h. Amendment, page 6: The amendment to paragraph [0032] constitutes new matter because it changes the invention to the extent that the originally filed method for production of L-Chloroalanine methyl ester hydrochloride using SOCl_2 has been deleted.

Applicant is required to cancel the new matter in the reply to this Office Action.

10. Applicants are required to cancel withdrawn claims 9-11.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Conclusion

11. Claims 1-11 are pending. Claims 1-8 are allowed.
